Dear Huron East Council,

From my understanding the noise bylaw which was introduced and passed its first reading which was brought forward directly due to the Brussels Four Winds Barn - Wedding and Event Venue. I wanted to provide information to council to explain what I am doing as a manager along with my staff to keep noise from a wedding down.

Since becoming Manager 5 years ago, I have worked hard to make sure we continue to work with our neighbours to keep the noise at a level that is respectful and keep communication open. Even before this bylaw, we have adapted the 11pm noise levels that other municipalities hold around us. The bartenders are continually measuring the levels throughout the reception and the large barn doors must be closed by 11pm. If I receive a complaint, the bartenders are notified to check their readings again, go outside to check as well. Upon this complaint even if the reading is in a respectful level, the DJ is asked to turn it down and the doors are all closed but the one facing the library. If another complaint is given to me, I ask the bartenders to go to the DJ again and have it turned down along with the last door being closed. No matter if this complaint comes in at 9pm or 10pm, we follow these. Also I make sure all the doors are in fact closed no later than 11pm.

All the neighbours have access to my phone number which is posted on the side of the barn, on our website and social media. I answer each text that is sent about noise.

Please know we are following a process and continue to work hard on this. If you have any questions at all please reach out to me.

Thank you,

Kaitlyn Pipe
