In response to Council, staff confirmed that the grant budget would be reviewed so that the service clubs which maintain municipal land, would be part of a regular budget line and agreed to the fact that a lot of parks are run by volunteer groups which could be returned to the municipality at any point in time, thus the need to prepare the budgets accordingly.

Council discussed the operating costs of the Lion's club noting that they have a \$20,000 deficit, which the \$10,500 grant or the additional \$4,500 cover, and proposed to use \$20,000 of the capital reserve amount, for the Victoria Park playground, towards the Seaforth Lion's Club.

Staff cautioned Council on moving capital reserves to cover operating expenses and reminded Council that the request from the Lion's Club is for the additional \$4,500 only and reiterated the options presented which includes: granting the \$4,500 but delaying the payment until 2024; approving the \$4,500 for payment in the 2023 budget, and directing staff to investigate where the funds would come from; or denying the additional grant amount.

Community Services Director Lissa Berard provided an overview of the proposed application, noting it would be used for an all ages inclusive park in an empty green space, located in Vanastra, which would include outdoor fitness equipment, a play structure and a sports court. It was noted that the OTF would pay up to 85%, leaving the municipality to pay the remaining 15%, however applying for a 66% grant, with 33% paid by the Municipality, would create a more favourable application.

L. Berard noted that the proposed playground would be slightly over the 2023 budgeted amount, however the grant application could be spread over a two-year period, requiring Council to commit funding in the 2024 budget.

In response to Council, L. Berard clarified that the project would not move forward if the application was not successful and that there are no third-party investors. It was confirmed that the plan is to have these types of projects developed throughout the Municipality.

Dear Ministers:

On behalf of the Council of the Town of Bradford West Gwillimbury, we are writing to you pursuant to the enclosed motion to endorse the right-to-repair movement and to call on your government to expedite the promised consultations to enshrine this principle in consumer-protection law, with specific consultations and measures related to supporting the agricultural sector undertaken.

Right to Repair is a simple environmental and consumer protection measure: it ensures consumers are able to reasonably access repairs to electronic and other devices at a fair price, rather than creating a monopoly through technology companies only being able to repair their own products. This measure will also help reduce waste by combatting planned obsolescence, where companies make products that are only intended to last for a period of some years, and are not really repairable.

Further, farmers and growers are intimately familiar with the particular nuances of this issue when it comes to increasingly high-tech agricultural equipment. As the “soup and salad bowl of Canada”, Bradford West Gwillimbury is home to many farmers and growers, so we know firsthand how important an issue these consultations will be.

Our Council has shown in recent years that we are at the forefront of advocating for important environmental protections, including the Freshwater Action Fund, and we are grateful to our new Green Initiatives Committee for recommending this current piece of advocacy to protect the environment and consumers.

A copy of the motion is enclosed. We would be happy to meet with you or your representatives to discuss this further.

Sincerely yours,

James Leduc

At its Regular meeting of Council held on Tuesday, June 6, 2023, the Town of Bradford West Gwillimbury Council approved the following resolution:

Resolution: 2023-199

Moved: Councillor Verkaik

Seconded: Councillor Harper

Whereas the “right-to-repair” movement seeks to ensure consumers of electronic products, including mobile phones and computers, as well as agricultural equipment, are able to make routine fixes to damaged products without having to rely on the manufacturer and to affordably make such repairs; and

Whereas this movement and efforts against “planned obsolescence” seeks to ensure affordability for consumers and to protect our environment by reducing electronic waste; and

Whereas the agricultural sector has unique needs related to specialized electronic farm equipment and the ability to make repairs in a timely and affordable manner, especially during the growing season; and

Further to a commitment in the 2023 federal budget that “the government will work to implement a right to repair, with the aim of introducing a targeted framework for home appliances and electronics in 2024. The government will launch consultations this summer, including on the right to repair and the interoperability of farming equipment, and work closely with provinces and territories to advance the implementation of a right to repair” (p. 38); and

Be it therefore resolved that the committee recommend Council endorse the right-to-repair movement through a letter from the Mayor and Green Initiatives Committee Chair to call on the federal government to expedite the promised consultations to enshrine this principle in consumer-protection law, with specific consultations and measures related to supporting the agricultural sector undertaken; and

That a copy of this resolution and letter be shared with the Minister of Innovation, Science and Economic Development; the Minister of Agriculture and their critics; and the Member of Parliament for York—Simcoe; and to the Federation of Canadian Municipalities (FCM), the Association of Municipalities of Ontario (AMO) and Ontario’s Municipal Councils, with a request for their endorsement of same.

Result: CARRIED.

Since then the appellant and staff have attended a pre-hearing conference, which proceeded to a hearing and final decision issued in February 2023.

The following is the Orders of the Tribunal:

 - c. Appendix D1 and D3 shall be revised to show the increased assessment from the pro-rata distribution of the assessments, resulting from the reduction of assessments to Lot 5
 - d. Appendix D4 shall be revised accordingly
 - e. The titles of Tables D5, D6 and D7 in Appendix D shall be revised to Assessment for Maintenance
7. The non-administrative costs of the Municipality incurred with respect to this appeal shall form part of the cost of the drainage works, and such costs may include the Engineer's fees and expenses for attending and participating in the appeal; and
8. There shall be no other Order as to costs and all parties are responsible for their own costs.

Comments:

R. J. Burnside and Associates have provided the re-assessments and they have been distributed to the property owners. A copy of the letter from the Engineer and the revised assessments is provided in Attachment 1.

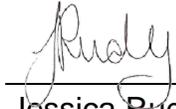

A tender will soon be issued and will come forward to Council for a recommendation on the preferred bidder.

Huron East Administration

To: Mayor MacLellan and Members of Council

From: Brad McRoberts, MPA, P. Eng.

Date: June 20, 2023

Subject: Request for Proposal – Pay Equity Review

Recommendation:

That the Council of the Municipality of Huron East award the Pay Equity Review to Gallagher Benefit Services (Canada) Group Inc.

Background:

On May 6, 2023, the Municipality of Huron East issued a Request for Proposal for a Pay Equity Review. The Request for Proposal closed on June 8, 2023 and six (6) submissions were received.

The submissions were evaluated against prescribed scoring criteria as outlined in the Request for Proposal. Proponents were required to achieve a minimum score on their technical proposal before their separate fee proposal was opened and scored according to a formula-based calculation (lowest fee given full points with remaining allocated a portion of the points depending on their proposed fee). The combined technical score and fee score was used to provide a total score for consideration of award.

The technical proposal was worth a maximum of 80 points and the fee proposal was worth a maximum of 20 points. One proposal did not meet the minimum technical score requirement of 50 points out of 80 points and was removed from the evaluation.

The following table outlines the consolidated results of the evaluation of the remaining five (5) submissions by the Executive Assistant/Payroll/HR Coordinator and CAO:

Category	Ward & Uptigrove	Gallagher	Pesce	HR Strategies	Telus Health
Technical Score (80 points)	70.0	75.0	72.5	59.5	67.0
Fee Score (20 points)	13.2	20	15.4	10.1	11.3
Total Score	83.2	95.0	87.9	69.6	78.3

Based upon the result of the evaluation, staff are recommending the award of the Pay Equity Review to Gallagher Benefit Services (Canada) Group Inc. for the fee of \$21,500 excluding HST.

Gallagher has completed pay equity and compensation reviews for several rural municipalities throughout Ontario including Huron County and Township of North Huron. The Project Lead, Jane Mizanski, has over 30 years of experience in human resources and compensation program design and delivery for public and not-for-profit sectors.

Others Consulted: Director of Finance, Executive Assistant/Payroll/HR Coordinator, other Huron County CAOs. Proponent references were also contacted confirmed.

Financial Impacts:

The cost for the Pay Equity Review was included in the 2023 budget and the proposal value was below the \$25,000 allocated for the project.

To: Mayor MacLellan and Members of Council
From: Taralyn Cronin, Economic Development Officer
Date: June 20, 2023
Subject: Brussels Fairy Wings Mural

Recommendation:

That Council support the recommendation from the Economic Development Committee to hire a local artist to paint a mural in downtown Brussels to promote the Fairy Door Trail and attract visitors to Brussels.

Background:

The Economic Development Committee would like to hire a local artist to paint an interactive mural in downtown Brussels to promote the Brussels Fairy Door Trail and attract visitors to the area. A rough concept is shown below. The idea is to have three different sets of wings, including a smaller set closer to the ground for children, that visitors stand in front of and have their picture taken. They can then share these pictures on social media using a pre-determined hashtag so that we can view them. The property owner at 449 Turnberry St. is willing to host the mural on the outside of their building facing the Homecoming Park.

The Committee believes that this mural will help make downtown Brussels more attractive. This idea has been raised by community members several times over the past few years; however, there has not been a community organization step forward to take on the project and fund it. \$30,000 from reserves was allocated towards new winter streetlight decorations for downtown Brussels this

year. Those decorations have been purchased for a total cost of \$21,748.14 (includes HST and shipping). The Committee would like to re-allocate a portion of the left-over funds towards this mural project.

Others Consulted:

CAO, Economic Development Committee

Financial Impacts: \$4,500 coming out of the reserves that was allocated to Brussels Streetlight Decorations in 2023. Council should be aware that using surplus funds from budgeted projects that are funded through reserves will have impacts on subsequent year(s) reserve contribution requirements resulting in potentially higher reserve contributions funding.
